

# SCHEDULE OF PORT TARIFFS

---

AS AT 1 JULY 2023

  
**PORT of BRISBANE**  
Here for the future

## Schedule of Port Tariffs Terms and Definitions

Use of Port of Brisbane Pty Ltd (PBPL) facilities attracts charges as defined in this document, with component pricing outlined in the pricing schedule. All prices are inclusive of GST. By using the facilities you agree to be bound by the terms and conditions contained within this schedule and all other relevant PBPL documentation. Port Tariffs are approved by PBPL's Board of Directors.

### Wharfage and Harbour Dues

Wharfage is a cargo-based charge levied on users of PBPL-owned wharves. Harbour dues are cargo-based charges levied on users of the Port of Brisbane shipping channel. Charges for bulk and break-bulk trades are generally levied on a volume or tonnage basis (whichever charge is greater). Certain commodities may attract specific, negotiated charges. The charges for containers are calculated on a per unit (TEU) basis according to container size and type. Cruise ships are levied Harbour Dues per Gross Registered Tonne (GRT).

### Port Access Charge

The Port Access Charge (PAC) is a cargo-based charge levied on specific commodities. It is designed to recover the cost of significant capital projects which facilitate growth and improve access at the port.

### Notice of Intention to Load or Unload Transfer Bulk Liquid Application Fee

The Notice of Intention to Load or Unload Transfer Bulk Liquid application fee is a fee to cover the costs of bulk liquid transfer inspections performed in accordance with the provisions of the *Transport Operations (Marine Pollution) Act 1995* and the condition contained in the Port Notice Bulk Liquid Transfers in Non-Tanker Berths (use of Sea Valves and Tank Washing). The fee is applied per vessel entry into the Port of Brisbane and assessed on receipt of each application.

### Port Security Charge

In accordance with the *Maritime Transport and Offshore Facilities Security Act 2003*, PBPL is responsible for maritime security of all common user and waterside areas at the Port of Brisbane. In order to recover its costs from port users for the implementation and ongoing maintenance of security measures at the Port of Brisbane, PBPL has a cargo-based security charge.

### Common User Wharf Fees

The facility hire fee applies to common-user berths managed by PBPL. This fee covers access to power, the wharf usage of the berth pocket, use of any amenities and any other improvements/infrastructure provided at common-users berths. Security incurs separate fees. Charges are based on a 24 hour period defined as when the vessel comes alongside, the first line ashore to when the last line is released.

If a vessel is required to pass a hull survey prior to loading or unloading cargo at a common user berth, and if it fails that hull survey, the vessel will be charged at a lay-up rate (applicable to that berth) until the vessel commences loading or unloading.

### Vessel Utility Charge (Water)

Water charge based on metered amount (measurement taken by PBPL). Please note, this charge may vary from berth to berth.

### Common User Terminal Permit Fees

A Terminal Permit Fee applies to terminals provided at common-user berths managed by PBPL. The fee covers the terminal area adjacent to the wharf.

### Manifest Lodgement

Manifests are required to be submitted within five working days of loading/discharge. PBPL will process submitted manifests within three working days of receipt of all necessary information. Both weight and volume must be included on all manifests for non-containerised cargoes.

Effective 1 July 2024, PBPL reserves the right to demand that Container Shipping Lines and/or their respective agents, submit EDI manifests which include 6-digit AHECC codes. Failure to comply with this requirement may result in a manual manifest processing fee being levied.

### Transhipment

Transhipments are charged at the full rate of wharfage and harbour dues for imports. Export transhipments are exempt from harbour dues and wharfage. The Port Access Charge is not payable for transhipments. The Port Security Charge is levied on both import and export transhipments. A transhipment notice must be forwarded to PBPL within five working days of the arrival of the inward vessel. The export exemption does not apply to empty containers.

### Payment Terms

Pursuant to the *Transport Infrastructure Act 1994* (the **Act**) charges payable in relation to a ship or passengers on a ship are payable (jointly and severally) by the owner, master and agent of the owner of the ship and any other person who has accepted liability for the charge. Charges payable in relation to goods are payable (jointly and severally) by the owner, consignor, consignee, agent for the sale or custody or person entitled to possession of the goods, the owner and master on the ship on which the goods were transported and any other person who has accepted liability for the charge.

For convenience, PBPL will invoice the owner or agent of the owner for wharfage, harbour dues, security and other port charges payable in respect of the ship, goods or passengers. However, PBPL reserves its right to recover payment from those persons liable for such charges under the Act. PBPL may elect (in its absolute discretion) to extend credit for the payment of such charges for up to 30 days. However, all charges shall be payable upon the relevant ship berthing at the Port of Brisbane. Interest at the rate of 1% per month will be levied on all amounts outstanding after the due date for payment as stated on PBPL's tax invoice.
